

Development Process

(Deadline: 9 September 2024)

First iteration: 09/08/2024 – 31/08/2024

1. ccapiferri (09/08/2024 – 12/08/2024):
 - a. Database requirements analysis and specification document
 - b. Conceptual design (E-R diagram + documentation)
 - c. Logical design (E-R diagram to be renovated and translated + documentation)
 - d. Logical schema implementation with PostgreSQL
2. adellafrattina (09/08/2024 – 12/08/2024):
 - a. Create package diagrams
 - b. Create class diagrams
 - c. Create sequence diagrams
 - d. Create state diagrams
 - e. Create use case diagrams
3. adellafrattina (12/08/2024 – 13/08/2024):
 - a. Implement the core application engine
 - b. Implement the handler class
 - c. Implement the widget classes
4. dariiasniezhkoinsubria (13/08/2024 – 14/08/2024):
 - a. Implement resource classes
5. everyone (12/08/2024 – 28/08/2024):
 - a. Implement the java classes down below
6. adellafrattina (16/08/2024 – 28/08/2024):
 - a. Fix imperfections
 - b. Add missing classes to documentation
7. ccapiferri & francescolops (12/08/2024 – 28/08/2024):
 - a. Implement the Client-Server-Database communication
 - b. Implement the necessary queries
8. adellafrattina (28/08/2024 – 30/08/2024):
 - a. Requirements check
 - b. Errors and various imperfections will be reported in the “Bugs and Issues” document and will be treated in another iteration if the severity is marked as “low”

9. everyone (30/08/2024 – 30/08/2024):

- a. Create the user manual
- b. Create the technical manual
- c. Create the Javadoc
